ThurayaDSL Land Portable Data Terminal

Need high speed internet access in northern, central/western *Africa*, the *Middle East*, *Central/South Asia* or the *Indian Subcontinent*? Thuraya now serves more than 110 countries with cost effective high speed GPRS packet data internet access. The ThurayaDSL satellite IP modem connects to your computer via an Ethernet port. A web-based user interface provides details of the operational status of your connection. Now you have fast internet access (up to 144 Kbps) anywhere within Thuraya's vast coverage area for your email, web browsing, FTP, TCP/IP, SCADA, client-centric thin data management access (Citrix, Oracle) and VPN applications. Service includes Dynamic IP addresses (standard). ThurayaDSL Kit Includes: terminal, lithium-ion battery, AC charger and user manual.

Unlimited Usage for a Fixed Monthly Cost

You can purchase one month of unlimited usage over your ThurayaDSL terminal for a fixed fee. Please call Outfitter Satellite for details.

144 kbps throughput
(best effort service, shared channels)

Maritime Antenna Kit

ThurayaDSL Maritime Antennas

Thuraya offers a maritime version of ThurayaDSL. Two versions of the maritime antenna exist depending on the location of intended use. Please call Outfitter Satellite to verify maritime coverage areas.

- Maritime Standard antenna
- Maritime South antenna

Notes: Price and availability subject to change without notice.

All prices in US dollars. Outfitter Satellite airtime contract required. It is the customer's responsibility to verify that there is adequate ThurayaDSL maritime coverage in the area of attempted use. MB means MegaByte.
